

## ARAB PAPER MANUFACTURING CO. (WARAQ) STARTUP NEW MACHINE PM3

On 13<sup>th</sup> July 2014, one of our key customers in Saudi Arabia, **Arab Paper Manufacturing Co. (Waraq)** started the commissioning for new machine (PM3) for liner and medium grade and celebrated with first paper roll.

PM3 designed capacity is 1,000 tons per day, speed 850mpm and width 6.5m, production grades will be testliner and fluting from 90 to 200 gsm. After startup, PM3 will be the biggest machine for packaging grade in the Middle East, Waraq will be the biggest producer for medium and liner grades in the Middle East with daily production of 1,500 tons.

Waraq Company relies on Amazon for the microbiological program for this new machine PM3 as well as PM1.
